Subject :- Request of Mr. Mohd Saquib, GWT-1830617 for rechecking the grade of MEP-711 (Metrology Lab).

PUC is a request of Mr. Mohd Saquib, GWT-1830617 received through mail. The student belongs to 2017 batch Mechanical Department. In the request, the student has mentioned that he is fail in MEP-711 (Metrology Lab) by the concerned teacher Dr. Rakesh Kumar. The student has mentioned that he wrote and uploaded the experiment but it was not uploaded due to large file or any software issue. Now the student is requesting for rechecking of grade MEP 711 Lab. (copy of request is enclosed).

Further it is informed that the student has been awarded 'F' grade (detained) by the concerned teacher in the subject MEP-711 as per award sheet received from the department and the result has already been declared. Copy of the award sheet is enclosed. The clarification of the facts as mentioned in the mail by the student is required from the concerned teacher of the department.

Submitted please.

Subject: Request for rechecking of my MEP711 Lab grade

Hello sir my name is **MOHD SAQUIB RASHID** from **Mechanical engineering specialization in welding technology** 2k17 batch with registration no **GWT/1830617** On 31th of may my 7th semester result was out and i got **(f)** grade in metrology lab **MEP 711** through the concern teacher **DR RAKESH KUMAR** sir. There are ten experiment in the lab given by the concern teacher in one pdf on **31 december 2020** and the due date of submission was **10 jan 2021 at 05:00pm**. I wrote ten experiments and made one pdf which turn out to be a huge file and i had submitted the practice before due date, But i dont know it not turn in, it may be that it could not to be uploaded due to network issue or it was not uploaded due to large file or due to any software issue, but at that time file shows uploaded in classroom, so i thought it must have been successful. At last time the concern teacher sent a message to the group through CR, the student who did not submitted the practical, do it. at that time i thought that i had already submitted. When the result was out i came to know that i have got **f grade** then i checked the classroom it was shows missing, but i dont know how. So please sir look it in my matter because its my final semester and i have end semester exam at **15/06/2021** and i never face any backlog in any semester, and i have always maintained my pointer, that my 7th semestr have **8.04** and 6 semester have **9.4 sgpa**, i have already applied for job in a company and this lab will affect my career.

Again i uploaded my practical pdf succesfully in the classroom,

So please sir have a look in my problem i will be highly obliged for you sir

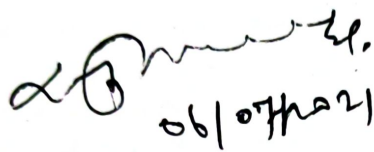

Thank you.

Minutes of meeting of DAAC (Mechanical Engineering)

Case of discrepancy of results (Subject name: Metrology and mechanical measurements lab, Subject code: MEP-711), requiring revision pertaining to two students of GWT 2K17 batch viz. Mohd. Saquib Rashid, Reg no.1830617 and Abdullah Mateen Registration No. 1830619, was examined by the DAAC and the following was resolved:

The teacher was informed regarding the case for any consideration of the request made by the students and for carrying out any rectification/correction/revision of the marks/grades in the said subject. The teacher has revised the result and the same is being recommended by the DAAC for consideration.

Continued from page 1.

The case pertains to permitting the student Mr. Akash Kumar, Trade: CFF, Reg. No. 2010633, for late registration (seemingly well beyond the last date) where the ground requested by the student is ill health.

The DAAC observes that since this case is not covered under existing academic rules of the institute related to registration (especially in such cases of illness/medical condition), hence recommends that the case may be put up to the competent authority for consideration.

Minutes of meeting of DAAC (Mechanical Engineering)

Case related to non-registration of the subject OEEE-611C (Renewable Energy Resources) and the late result (RL) of Mr. Parvinder Singh, GME-2030738 was examined by the DAAC in the meeting held on 11-04-2022 at 11 AM in the office of HOD (ME) and the following is submitted:

From the records available in the case file, it is observed that Mr. Parvinder Singh, GME-2030738 did not register for the subject OEEE-611C (Renewable Energy Resources) at the time of registration of his 5th semester. When the student was asked for explaining the reason for not registering for this course, he told that he faced certain technical problem while registering. However, assuming himself to be registered he started attending the classes of this course that was assigned to the teacher Mr. Sudhir Kumar Sharma (RS), Deptt. Of EIE by the subject coordinator Dr. Mohit Kumar, AP (EIE). It is further observed that this sort of lapse of non-registering for this course on the part of the student was out of his sheer ignorance and he attended his classes responsibly, besides appearing at the examination of the said subject.

So, in view of this the DAAC (ME) recommends that the student's name may be allowed to be shown on the ERP portal of the course coordinator and his result be declared accordingly.

Dated 12/4/2022

DAAC

Subject: Partial correction/revision to be carried out in the awards of subject Engineering Drawing (ESME-404) of GME-21 batch (1st Semester).

It is kindly stated that awards pertaining to the subject as mentioned above have been submitted timely on March 7, 2022, the result of which has already been officially declared.

However, while going through the award sheet, it has been observed that entries in the award list from Sr. No. 1 to 19 out of 68 got interchanged. While preparing the result sorting was done in alphabetically manner as taken from Google classroom and was to be transferred to the list as it appeared in the ERP portal of the subject. While doing this, inadvertent error occurred due to which 19 entries as mentioned earlier got affected.

In view of this discrepancy, it is requested that necessary correction/revision pertaining to these 19 entries may please be allowed to be made in order to submit the revised and corrected result which has already been corrected and prepared.

Submitted for kind consideration and approval please.

Enclosures: Copies of

1. Originally submitted result
2. Revised result containing corrections in the entries from Sr. No. 1 to 19.

Surinder Kumar
A.P (ME)

HoD (ME)

Pl. put up in the DAAC's meeting.

10/5/22

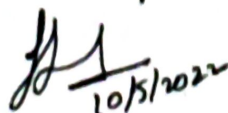

Dr. R.K. Yadav, M.C. DAAC (ME)

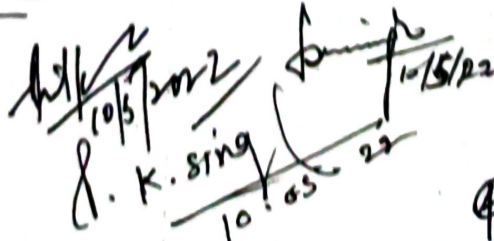

The above case has been examined in the meeting of DAAC, Deptt. of Mech. Engrg. on 10/5/22. Going through the case, it appears that there crept in some error inadvertently while transferring data from one place to another and due to this error the awards of nineteen students got affected.

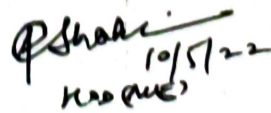

In view of this, it is recommended that necessary correction may be allowed to be incorporated in the award and the corrected award (enclosed herewith) be allowed to be submitted and considered.
