

Minutes of BOS meeting regarding starting of Integrated M.Tech with B.E in Mechanical Engineering Department

BOS

A meeting of BOS of Mechanical Engineering Department was held on 10.06.2020 in the office of HOD(ME) related to explore feasibility of starting Integrated M.Tech with B.E.

Following points were discussed in detail :

1. Mechanical Engineering Department presently offer following Programme:

Level	Name of the Programme
3 Years ICD Programme (DME)	Air Conditioning Mechanic (CAC) Auto & Farm Equipment Mechanic (CAF) Foundry and Forging (CFF) Tool & Die Technology (CTD) Welding (CWG)
UG Programme	Mechanical Engineering
M.Tech. Programme	Manufacturing Systems Engineering (PG-MSE) Welding and Fabrication (PG-WLF)

In addition to these programmes, Ph.D Programmes are also being offered.

- It has been observed that additional qualification through integrated programme may not make ^{significant} value addition in general in securing better placement. Therefore, increasing the time span of UG students through integrated programme may not benefit students. Hence such programme is not expected to attract bright student's for admission.
- Integrated M.Tech Programme limits the opportunities for doing M.Tech. with a valid GATE Score, in a specialization of their choice, and also in an institute of better-NIRF ranking.
- Mechanical Engineering Department is exploring the possibility of starting to new specializations at M.Tech. level.
- Department has already proposed 04 Nos. of honoured degree in Mechanical Engineering as detailed in "Annexure-1".
- The number of seats in UG programme (Mechanical Engineering) may be increased up to 180 (including all categories).

In view of above, BOS is of the opinion that it may not be appropriate to start integrated M.Tech with B.E in Mechanical engineering Department.
