REPORT ON QUIZ ORGANIZED BY SLIET MECHANICAL ENGINEERING SOCIETY (SMES) ON 24TH FEBRUARY 2023

On 24th February 2023, the SLIET Mechanical Engineering Society (SMES) organized a quiz competition at Sant Longowal Institute of Engineering and Technology. The event was open to all students from different branches of the institute, and a total of 142 students participated in the quiz. The participants were divided into two categories: ICD (Diploma) and UG (Undergraduate).

The quiz started at 5:00 pm and lasted for 25 minutes, ending at 5:25 pm. The questions were designed to test the participants' aptitude and technical knowledge. The quiz covered various topics related to mechanical engineering and included questions on both theoretical concepts and practical applications.

All participants were required to pay an entry fee of 10 rupees to participate in the quiz. The entry fee was used to meet the expenses associated with organizing the event, printing notice and refreshment etc.

Total amount received:-RS1420

In the ICD category, the winners were as follows:

1. Sudhir Kumar – Registration Number: 2010564

2. Sudhanshu Ranjan – Registration Number: 2010575

In the UG category, the winners were as follows:

1. Prince Raj – Registration Number: 2236123

2. Prashant Mangalam – Registration Number: 2236120

These winners demonstrated exceptional aptitude and technical knowledge in their respective categories. Their achievements reflect their dedication to their studies and their passion for mechanical engineering.

The quiz competition organized by the SLIET Mechanical Engineering Society (SMES) was a resounding success. It provided an excellent platform for students to showcase their knowledge and skills in aptitude and technical aspects of mechanical engineering. The event fostered healthy competition among participants and encouraged a deeper understanding of the subject.

We extend our congratulations to all the winners and participants for their active involvement in the quiz competition. We would also like to express our appreciation to the organizers and volunteers of SMES for their efforts in making this event a memorable one.

INTRODUCTION

AutoCAD is a CAD software for creating 2D and 3D designs and drawings, widely used in industries like architecture, engineering, construction, and manufacturing. Its comprehensive set of tools and features, user-friendly interface, and ability to handle large amounts of data make it a versatile and popular choice for professionals on multiple platforms.

PURPOSE

SMES has organized workshop on the fundamentals of AutoCAD equip participants with essential skills and knowledge in computer-aided design (CAD) using AutoCAD software.

Proficiency in AutoCAD is highly sought after by employers in various industries. By participating in this training, individuals can enhance their employability and increase their chances of securing jobs or internships in relevant fields.

Regular updates introduce new features, performance enhancements, and compatibility improvements, ensuring that users have access to the latest tools and technologies in design and drafting.

DAILY REPORT

DAY 1

INTRODUCTION ON AutoCAD

AutoCAD is a widely used computer-aided design (CAD) software developed by Autodesk. It allows users to create, modify, and document 2D and 3D designs with precision. AutoCAD finds applications in various industries, such as architecture, engineering and manufacturing.

USES AND FUTURE SCOPE

AutoCAD is a widely used software for design and drafting. Learning AutoCAD offers career opportunities in architecture, engineering, construction, and manufacturing. It allows users to create accurate drawings, 3D models, and construction documentation. Proficiency in AutoCAD enhances design skills and productivity in various industries.

DEMAND IN INDUSTRY

AutoCad has a major advantage over BIM specific software. The analogy that I use is that AutoCad is basically a giant drawing pad and Revit is lego. AutoCad is so versatile there is nothing that you cannot draw with it, it interacts well with image files and software like Word

DAY 2

ABOUT AutoCAD INTERFACE

1. Ribbon: A toolbar at the top of the AutoCAD interface that provides access to various commands and tools.

2. Command Line: A text-based interface at the bottom of the screen where users can enter commands and receive prompts and feedback.

3. Tool Palettes: Customizable panels containing frequently used tools, blocks, and symbols for quick access.

4. Drawing Area: The main workspace where users create and modify designs.

5. Viewports: Display multiple views of a design within a single drawing file.

6. Layers: Organize and manage different components of a drawing, controlling visibility and properties.

7. Drawing Tools: Tools for creating precise shapes and geometry within the drawing area.

8. Modifying Tools: Tools for manipulating and editing objects, such as move, copy, and rotate.

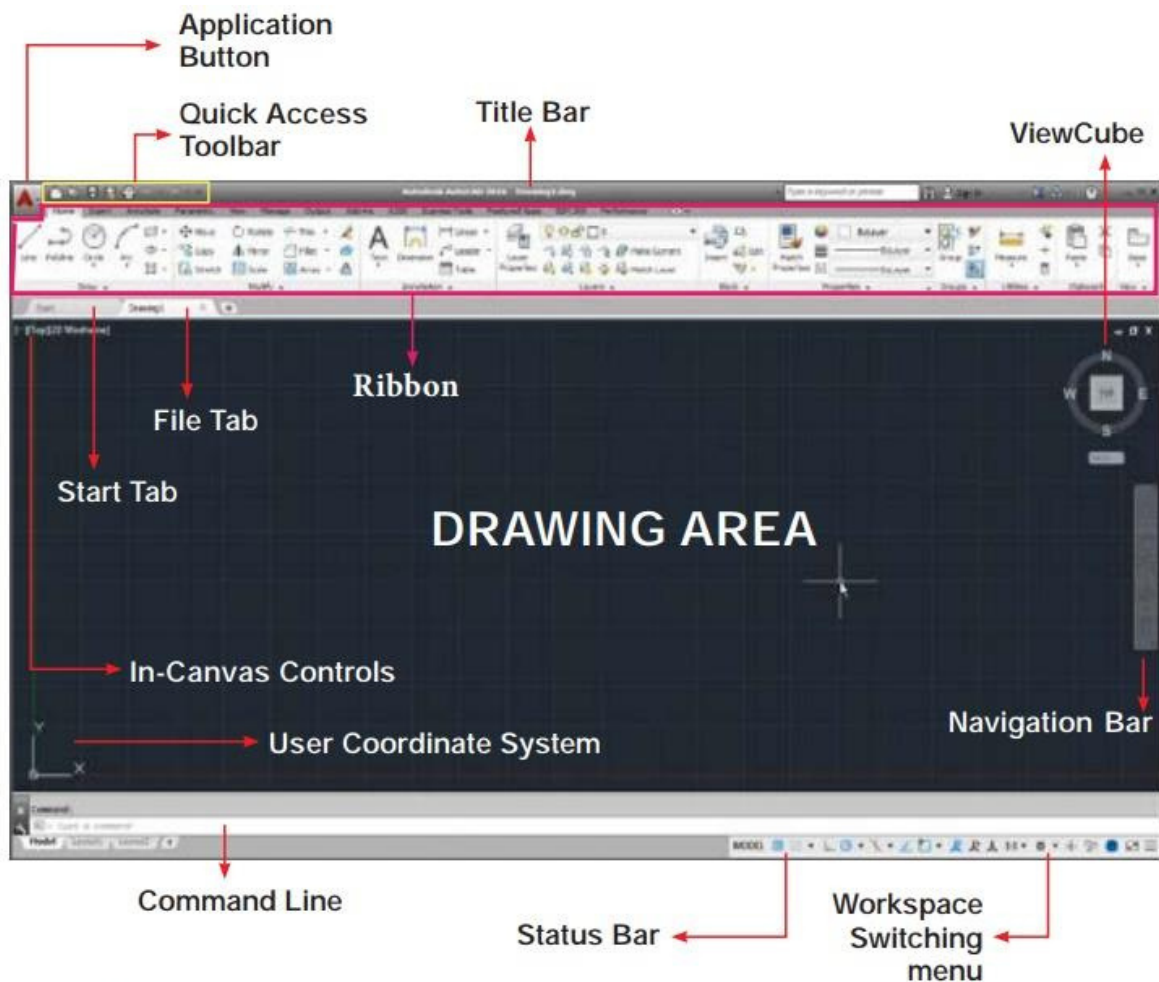

Fig. 6.5 AutoCAD 2016 screen components in AutoCAD Drafting & Annotation workspace

DAY 3

ABOUT AutoCAD TOOLS

1. Line: Creates straight lines.
2. Circle: Draws circles.
3. Arc: Creates arcs.
4. Rectangle: Draws rectangles.
         5. Polyline: Creates continuous shapes.
6. Hatch: Fills closed areas.
7. Text: Inserts text.
8. Dimension: Adds dimensions.
9. Block: Creates reusable objects.
10. Layer: Manages layers.
11. Modify Edits objects.
12. Mirror: Creates mirrored copies.
13. Offset: Creates parallel copies.
14. Fillet: Rounds corners.
15. Chamfer: Bevels edges.
DAY 4

PRACTISE SESSION ON AutoCAD
DAY 5

PRACTISE SESSION ON AutoCAD
