**Subject: Regarding submission of the result pertaining to two subjects of honour's degree of GME (5<sup>th</sup> Semester)**

It is kindly stated that a request had been made by seven number of students of GME 2021 batch for withdrawal of honour's degree in Welding owing to the reason that they were not eligible for honours degree due to non fill-filment of a mandatory condition of 07 CGPA without any backlog.

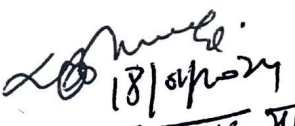

Further, it is submitted that the result of the entire GME 21 batch for the end semester exam had to be put on hold as no response related to seven number of students as mentioned above was received.

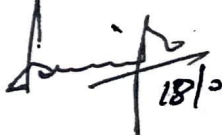

So keeping in view, the timely submission of the result and its subsequent declaration, the DAAC(ME) proposes that the result of two honour's subject for the students may be provisionally awarded as "W" where "W" strictly indicates a withdrawal grade not for the entire semester but "specifically for the honour's degree in welding".

Submitted for consideration and necessary action please.
